Argraph Introduces Adventure Vest

”Take your cameras where they’ve never been before”

Argraph Corporation, the international supplier of photographic / imaging products is introducing **Adventure Vest**, the uniquely comfortable new way to carry professional photographic equipment. The Adventure Vest lets you find what you need quickly, helping you get that perfect shot.

By utilizing weight bearing properties in the shoulders **Adventure Vest** enables photographers to easily carry a full size DSLR, 70-200mm, 24-70mm, teleconverter, and accessories in the sizable padded pockets and go for a jog, bike, ski or whatever one can dream up. Made of breathable 600-denier cordura nylon, the **Adventure Vest** comes in two sizes and can be custom fit with a pull of a few straps. A fold-down chair is weightlessly incorporated into the vest... no more standing long hours for the perfect shot. The **Adventure Vest** is the answer to equipment integration and ease.

Whether you are a photojournalist or nature enthusiast the **Adventure Vest** has been designed to carry all of your photo essentials without the weight and bulk of a conventional bag. The **Adventure Vest** offers unbeatable comfort, security, and convenience.

Argraph Corporation and its subsidiaries has been a leading supplier of photographic imaging products since 1953. Headquartered in Carlstadt, NJ, Argraph offers an efficient distribution network featuring immediate delivery of over 7,000 products to retailers across the country, and around the world. Additional information is available at www.argraph.com.

Samples are available to qualified reporters and editors upon request.
